

Who are the winners?

April 2014

Email: challengeIT.cov@bcs.org.uk

Finals Exhibition, 20th March 2014

Special Points of Interest:

- Support 2014 National Science and Engineering Week
- Competition for local Schools and Youth Groups.
- Sponsored by BCS.

It was wonderful to see all the finalists and all the different entries on 20th March at Coventry University. The judges, in their interesting array of hats, did a grand job of determining the winners in each category. The feedback from the judges, sponsors and other visitors was overwhelmingly positive about the very high standard of entries and the exciting “buzz” throughout the afternoon.

The BCS Challenge IT committee thanks everyone involved in the day, for making it such a success. Links to event photographs are on the competition website: <http://bcs.coventry.org/competition.php>

Lightning 360: Saint Martin's School, Team members: Fran Pearson, Francesca Pattinson, Manjot Kaur.

Arcade Machine Game: Nicholas Chamberlaine School, Team members: Joshua Swift, Harrison Thompson.

COMPUTING AT SCHOOL

EDUCATE · ENGAGE · ENCOURAGE

The competition was planned and organised by a team of volunteers who are computer science professionals from the BCS Coventry Branch. Members of the Committee are also actively involved in the Computing at Schools Teachers' Hub for the Coventry and Warwickshire area. BCS Coventry Branch is very grateful for contributions from all sponsors and supporters of the competition. Thanks also to teachers and teams for helping to make this event a great success.

Chairman of BCS Coventry Branch
